**Tip: What else can you see kindness in? Make up your own song words by going through the book and filling in the blanks! And think up new things on your own...people, animals, places, things, situations, abilities – if you look, you can see kindness in virtually everything: sidewalks, bananas, water, the bird, the rain, my coat, my soccer ball, my bike... Then thank anyone involved with bringing that kindness to you. You can even draw pictures to go with your song!*
